

A Certificate of Occupancy is a document issued by the Department of Development Services that authorizes a building or structure to be used or occupied by the proposed use upon being inspected and found to be in compliance with the requirements of the 2012 International Building Code and all other City Ordinances.

A Certificate of Occupancy / Business License is required for:

- A new building
- A new owner for an existing building, or business
- A new use, tenant, or occupancy in an existing building, or tenant space
- A remodeled, altered, or expanded building, or tenant space
- A change in name of an existing business
- A change in location of an existing business

CERTIFICATE OF OCCUPANCY APPLICATION PROCESS

The owner and/or tenant must submit a completed Certificate of Occupancy application to the Building Inspections Department. The Certificate of Occupancy will be approved and issued when construction has been completed, all departments performing inspections have given their approval and a building final has been secured from Building Inspections and the Fire Marshal's office.

All others:

1. A complete application must be submitted to the Building Inspections Department along with a **\$25.00** application fee. Once all inspections have been conducted and the Certificate of Occupancy has been approved the license fee will be **\$50.00**.
2. A copy of driver's license or state/government issued photo I.D. is required. Additional information such as a copy of the business license (DBA from County, Inc., LP, LLC, etc.), copy of the tax permit/certificate, lease agreement and if you are the owner of the property a warranty deed will also need to be submitted.
3. A City Planner will review the application to identify the property's zoning district and determine if the proposed business type is an allowable use within that district. The Planner also inspects landscaping and signage to make sure it is in compliance with the City Ordinance. Please be aware that this department may take up to **3 business days** to complete this review.
4. If the proposed use is not in compliance with the current zoning district, this application will be cancelled and no further inspections will be conducted. If the proposed use is in compliance with the current zoning district, you will be contacted to schedule a time and date for the Building Official and the Fire Marshal to conduct an inspection. Additional inspections by Pharr Health Division will be required for food establishments. This process typically takes up to **10 business days**.
5. If violations are noted during the inspection process, a correction notice will be issued.
6. A Certificate of Occupancy will be issued when **all** departments performing inspections have given their **approval**. You will be notified when your Certificate of Occupancy has been issued. You are required to post your Certificate of Occupancy in a conspicuous location.

PLEASE PRINT OR TYPE – INCOMPLETE APPLICATIONS WILL NOT BE PROCESSED
